PRESS INFORMATION

CON-FORM® wins specialist contract on Tesco Livingston Distribution Centre

Taylor Woodrow was recently appointed as the D&B contractor for the new Tesco Distribution Centre at Livingston. Taylor Woodrow, in conjunction with its earthworks contractor, Chartrange Ltd, has appointed the ground engineering specialist CON-FORM Contracting Ltd to carry out ground engineering works.

The works to be carried out by CON-FORM include bulkfill modification, rolling dynamic compaction (RDC) and the production and placement of capping layer replacement material. The area to be treated is on a site of approximately 40 hectares with a fill depth in places in excess of 7 metres. RDC is being used on the site in conjunction with soil stabilisation due to the large depths of fill, as soil stabilisation and traditional earthworks techniques on their own would not have met the required settlement criteria.

CON-FORM's works are scheduled to take place over the next 18 weeks with the contract value being around £2m.

ends.

Note to Editors -

CON-FORM® is a leading ground improvement and pavement specialist, providing technically advanced solutions and services for the civil and building construction sectors, throughout the UK and Ireland. The company offers a unique integrated service, which encompasses ground remediation, *E-Found*® foundation solutions, soil stabilisation and modification, rolling dynamic compaction and material reprocessing as well as a range of paving solutions including its own MACRO-PAVE® and ENVIRO-PAVE® products.
